MAJ. GEN. JOHN P. HARTRANFT. Republican Candidate for Auditor General

Republican Candidate for Auditor General.

Our candidate for Auditor General is too well known to require at this late day any extended accesspage mention. The name of General Hartzanit is inmitiar to the whole country, and in Pennsylvana it has long sluce become a honeabold word. As a slight recognition of his services during the rebellion be was selected in 1865 by his fellow citizena Auditor General of the State, a position of great responsibility and one requiring the exertise of a methodical mula like that possessed by General Hartzanit. Having served the public in civil capacity as fathfully and fearleasty as he served his country on the field of battle, his fellow citizens have the second time placed him in nomination for this high and responsible position. Being a native and resident of Montgomery county our people of course placement has ordinary interest in his build and look upon his success with becoming griff atton.

major teriera donu Florencia. In minute os major en New Hanover township, Montgomery county, Pennsylvanis, and was born December 16, 1830. He gradinated at Union College, at Echenic ctady, New York, in 1833, and was employed as a rivil engineer for some time. In this position he became acquanted with the people of his native county and acquired a general reputation among all who, met him as a prompt, the control of the stative county and acquired a general reputation among all who, met him as a prompt,

careful and officient husiness man.
Having puramed the study of law the neces-sary length of time he was admitted to practice at the har of Montgomery county in the fall of

1860.

He was elected Colonel of the First Regiment of Montgomery County Milita in 1859, having previously been Licutement Colonel and Cap-

The call to arms in April, 1961, when, after Sunter was fired upon, President Lincoln issued in 6 rst appeal to the berosm and devotion of the people, found Colonel Hartranft a Democrat, attached to the political principles in which he had been reared. But it found him bone the loss a natriot. From the day in which he took he had been a patriot.

with warin words of commendation, and General McDowell expressed regret afterwards that be had not done justice to his valuable exertions by especially meationing him in his official report of the battle.

Gen. Cameron, then Secretary of War, also referred with high encomiums to bia conduct on this occasion, and it formed a gallant commencement for a grand career.

Col. Hartrancraft had no intention of retiring from the service at the close of his three months campaign. A week before the battle, Bull Run he had applied to, and obtained permission from the War Department to recruit a three year's regiment. He lost no time in commencing its organization. Gov. Curtin having added his easily and the service at the close of his three months are gained.

This regiment was an increasing the organization. Gov. Curtin having added his easily in the word of the continuation of the co

The rebel fortifications at Newburn were at tacked and carried on the 15th of March, and here again Col. Hartranft bure a conspicuous part. The contest was a severe one, and loss on both side, serious. The army of Burnslde remained at Newbern until the conclusion of Memanded at Newbern until the conclusion of Newbern until the conclusion of Memanded at Newbern until the Newbe

Early in August the force at Newport News was transferred by transparts to Acquis Creek, and thence by cultored to Fredericksburg, where Reno's Division arrived on the 4th of that month. Here they joined the sumy under Pope, and thence participated in all the fattles and skirnliches of his unfortunate comprign. The service during the three weeks of his command, was arduous in the extreme. From Fredericksburg to the old battle ground of Bull Run, the movement was almost a continuous struggle, and when the second battle on that renowned locality took piace, Colonel Hartrant; found himself poated on almost the same ground that he had lought upon in July of the preceding year. His regiment was posted on the left of the Centreville road, protecting Grabam's battery, till the interest cottmenced. When the brigade left the field it was divided, one regiment only marching with General Fereru, while the other two were ordered by another road under command of Colonel Hartranit. On this, as on the former occasion, when everything was confusion, Colonel liartranit remained cool, collected and self-reliant. In this action his regiment lost eight killed and wounded and thirteen missing.

Again at Chandilly Hartranit met the enemy, and again added new laurels to his fame. But these struggles did not over come the centry.

and again added new laurels to his fame. But these struggles did not overcome the enemy. Tured, foot-sore and exhausted as our men were, they took up the line of in men once more, on the 7th of September, and joined the march of the Grand Army, again under McClellan, up through Maryland to South Mountain and Antelain. The sugagement at bouth Mountain, though apparently but a preduct to the preater contest at Anteriam, was distinct in its character. It was fourch on Sunday Sentember 14th, and its at American, was distinct in its character, it was fought on Sunday, September 14th, and its result transfurred the grand battle from the little mountain pass to the banks of the stream beyond.

Colonel Hartrant commanded his regiment as usual, leading to the attack up the side of the

Sound, leading to the attack up the side of the mountain with his accustomed bravery. That ught our men occupied the important position they had carried, sleeping on the summit of the hill, whence the ground sloped away to the valley of the Antictam.

Two days occupied in abort movements, and the morning of Wednesday, September 17th, found our army controlling the rebel host. Soon the intreptd Hooker, on the right, was engaged. On the left Burnside waited orders till nearly needs, and then was directed to storm the enemy's position on the opposite bank of the stream, crossing his men over the barrow slone bridge that spanned the creek in his front. The position occupied by the rebels was one of wenderful natural strength. The road on the East bank wound up user the atream for some distance before

Still the bridge must be taken.

Then General Fortero rode up to Hartrauft, who lay with the regiment behind a knoll a short distance from the stream, and said to him, "fiendral Burnside directs you to take your regiment, and cross the bridge." Hartrauft never quostioned the orders of his superiors. It was his rule always to obey. Amid the chosen of his own mun, and the shouts of all those who witnessed the strempt, he led forward it is regiment, sione, and unsupported. Avoiding the susheltered roal below the bridge they reached the wing walls of the structure, and lay a few moments skirmishing, holding the ground thus gained. A regiment was hurried up to support them, but the situation was a terrible one. On all sides meand officers were failing. Capit Bolton, of Hart-

Democratic state Convention.

By Louis, August d.
lumedistely after the assembling of the Democratic State Convention this morning, the Committee on platform reported resolutions which were unsnimously stopted.

The Democrats of Missouri in Convention as sembled tooking only to living issues and condition in the Constitution regardless of past or present party association, do in view of the condition of the State and Nation proclum and resolve as follows:

the State and Nation proclum and resolve as follows:

1. That we ball with unbounded satisfaction the nomination of Horaid Seymour, and Y.C. Halr for President and Vice President of the United States, upon a platform of principles bold, earnest, sound and stutbful, and that with a fixed purpose and unconquerable zeal will labor in this canvass, to the end that our country may be redecined, regenerated and disinthrished.

9. While we are willing to proceed the colored race from every assault upon their matural rights, we are unsiterably opposed to negro suffrage and negro equality, and its logical sequence, the proposition now pending in this State to admit to the elective franchise the untutered African, while thousands of intelligent, industrious and its abiding while men are excluded from the ballot box, is a gross ment to our race and a ghastly mockery of the commonest principles of justice.

3. That the declaration of the Missourl Rudi-

Justice 3. That the declaration of the Missourl Radicals in their platform that they cherish no revengedin feelings towards those who fought in direction battle for an unjust cause and stand ready to restore to them every political privilege at the earliest moment consistent with State and Namonal safety, is a transporent falsebood, in view of the feet that through the/reasoning of the United States Supreme Court to adjuste cases proves the Missouri test oath unconstitutional, null and word. This party of proscription still require the oath to be administered and are at the present moment reorganizing their political unchangery through the infumous registration law to give strained and unwarrented internation of that oath.

3. We challenge the world to produce in the whole history of tyraeny any parallel to the law-less violence, the harsh oppression, the grinding incurvation of a jorion of the Radical party of Missouri in its dealings with the people. The rate of that pury has brought after the publication and almost arely by ruch of the publication and almost arely favorites, and squadeard thous ands unor purity favorites, and squadeard thous ands unor on university the productors. 5 That we cannodine as a legal propose a that every cluzin of lawful age, baving resided in the State and county the length of time required by law, has the right of suffrace, but we arge upon every legal voter in the State to rigister and vote. Whilst we themand a lair and impartial registration of all qualified voters under the law, we condemn and disconstenance any improper interferance with or itempt to intempt and obeying all laws regularly cuacted, the Democracy are the party of law and order, and their accession to govern will give place and tranquility to this distracted land.

6. The condition of our State, no less than the true principles of political and official action, demands frugality and economy, the contraction of expenditures, the lessening of taxalion, and, in short, the adoption of a rigid policy of retrenchment and reform.

A resolution recommended by the Committee was also adopted to appoint a committee to prepare an address to the people on the issues of the day, and the rights of clizens to register and vote under existing laws, and the decisions of the Courts upon the same, and point out a mode of legal redress for those who may be wrongfully deprived of such rights.

How John R. Philes was then no mast a for Governor by acclamation, and Col. Norman after which the convention adjourned.

CHEAP FOR CASH A Democrat on the New York Nomina-

Mr. P. H. Sibley a member of the Democratic State Central Committee of California, on hearing of the nominations at New York, resigned 5000 SASH (all sizes) his position as a member of the committee, and announced his intention of voting for Grant and Colfax. The papers from the Pacific coast bring his letter in full, and as it undoubtedly expresses the sentiments of tens of thousands of War Dem-ocrats in all parts of the country, we reproduce it. Indued, Mr. Sibley's reasons for withdrawing and as it undoubtedly expresse from the Democratic party, as given below, must command the assent of every honest War Democrat in the country: ientlemen of the Demucratic State Central Com-

Gentlemen of the Democratic State Central Committee:

I would be doing violence to may own feelings, and guitty of unfair conduct to you, did I continus longer to share your counsels and possess myself of your plans in the coming political campaign. In sendiment fand symathy I am no longer with you. My judgment neither approves the platform of principles on forth by the New York city convention, nor does my sense of duly to the country justify me in adding to advance Horsito Seymour to the office of President of the United States. In remembering that I am a Democrat I cannot forget that I owe a higher allegiance to the American Union. I should be glad to remain in the Democratic party, could I believe that in doing so I am not sacrificing those principles of putrotism that are higher and holler than any sentiment of mero party featty. I believe that the war was insugnated by the South in the interest of slavery. I believe that the therety of secession by arms. I believe the calling out of troops, the draft of soldiers, the proaccution of war against rebellious, was constitutional and necessary for the preservation of the Republic. I believe the emaccipation of slaves was uncessary and unavoidable as a war measure. I believe that the unational debt grew out of the exigencies of a long-continued and desperate conflict. San Francisco, July 13, 1868.

It is evident that Mr. Sibley had not read Frank Blair's letter at the time the above was written, which, being only a few days after the nominations were made, was too soon for the mails to have reached the Pacific coast, and of mails to have rescued the Pacific coast, and of course the letter was not telegraphed. Mr. Sib-ley, however, has doubtless discovered by this time new reasons to congratulate bimself on the step he has taken, and can scarcely feel any fur

The Growth of Mormonism

Mr. W. H. Houper, Congressional delegate from Utah, has recently addressed an interesting letter to Mr. John W. Chanler, chairman of the House Committee on Elections, giving a sketch of the growth of Utah. He says the Mormons have built up Utah from a des twenty years ago was twelve hundred miles from either settlements or navigable rivers, to what is now claimed to be a flourishing young State, containing one hundred thousand inhabitants, with a territorial extension of seventy-five thou sand square miles. There are eighty-six flourish-ing towns and cities in the territory, with near one hundred post-offices, while her grist and saw-mills, woolen manufactories and many other oranches of the mechanic arts equal those of the older States. There are one hundred churches one bundled and twenty schoolhouses and three theatres, which equal those of the States in size

and grandeur. The Mormons left Missouri in 1845, crossing Iowa, then a wilderness, and encamped on the banks of the Missouri, in what was then called the Pottawatomie country. Here they laid out the town now known as Council Blutts. spring of 1847 an advanced guard of one hundred and fifty men proceeded to Salt Lake valley, and relected the present site of Salt Lake City in July of that year. A few of these plonsers, under the lead of President Young, returned to the Mis sourl river the same fall, leaving most of the me at the lake to plough and plant during the fol

In 1848 the great bulk of emigration of that year reached the valley, and found that much had een raised for their sustenance. The march was attended by many hardships. The industry of the emigrants is shown in the fact that dur ing the tedious journey of four months duration the spinning-wheel and loom continued their work, and hundreds of yards of goods were wovcu, the heavy wagou and alow motion of ox-team giving an opportunity to spin and weave while the train was in motion. The first printing press ever taken west of the Missour! was established by the Mormons at Independence, in the years

In 1850 there was not a shingle roof in Sale Lake City, which now contains twenty th inhabitants. Mr. Hooper says that it is a remarkable feet that most of the money which has been made, and most of the fortunes which have been amassed in the territory of Utah in mercantile pursuits previous to 1863, have been made by those who have not been Mormons; and yet be has never known of a farm having been opened, a mill built, and very rarely a house erected in the territory, by any one not a Mormon.

Mr. Hooper estimates the Mormon emigra-tion from Europe, from 1850 to 1867 inclusive, at an annual average of two thousand souls, or an aggregate of thirty-six thousand; while the emigration from the States during the same period has been about twenty-five thousand. The estimated cost of taking these persons to Utah is cight million three hundred thousand dollar The emigration from Europe this year is esti united at four thousand souls; but it bly be greater.

About one-third of the emigrants have paid their own extenses. The remainder have been taken out by what is styled "the perpetual emi-grating fund," which has been in organized existence about twenty years, and is composed of contributions, tithes, legacies, and funds drawn from various cources both in Europe and Ameri-

ca. This fund is kept up, in fact, by those who on a direct line from the Atkinson farm to have received its benefits repaying when convenlent the expense incurred in their emigration, is order that others may receive a like benefit. Dur ing the present year \$150,000 was contributed in Sait Lake City alone, to comble others to reach America.

Mr Hooper proves that it is chesper to treat the Indians middly than to fight them, by stating that the United States government paid only seventy-five thousand dottars for the suppression of Indian bostlittles in Utah since the organization of the territory, while the Indian wars in Oregon and the adjacent States have cost the Preasury millions

Mr Hooper sico asserts that Utah has don much, directly and indirectly, to develop Cali-lornia, Nevada, Montana and Idaho, coabling the atter territories, through the supplies drawn from Utah, to work the gold and silver mines which have contributed so largely to the nation
